THE ABOLITION OF POOLS

TRANSPORTATION MEN ARE ANXIOUS AS TO WHAT MAY FOLLOW.

Chicago Seemingly the Center of Trouble Put in Motion by Interstate-Commerce Commission.

Indications are that the day of railway pools is nearing its close. Few persons are aware of the fact that the first pool among railways was inaugurated at Indianapolis -the Chicago and Ohio river pool, which as a pool passed out of existence four years ago, when a traffic agreement was formed, its object being to properly divide the business between the lines and maintain rates, and for two years at least it has been honorably lived up to by the roads interested, but it is questionable if, under the new ruling, it can be continued as now operated. On Sunday every engine not in other service was pressed into moving freights, and fully seventy loaded trains were received and forwarded at Indianapolis.
